Profile Summary

Design Engineer with 12+ years of experience designing and building high-performance, front-facing web experiences across enterprise, agency, and freelance environments. Specializes in translating concepts into production-ready interfaces using Figma, HTML, CSS, and JavaScript, with a strong focus on usability, accessibility, performance, and visual clarity. Known for owning web experiences end-to-end—from exploration and prototyping through implementation—while balancing brand, business goals, and technical constraints.

Core Skills

- Design-to-Code Execution (HTML, CSS, JavaScript, Vue.js)
- Web & UI Design (Figma, visual hierarchy, responsive layouts)
- Accessibility & Web Standards (WCAG-aware, W3C, cross-browser)
- Information Architecture & Content Structure
- Performance-aware design for the browser
- Collaborative development/design reviews and feedback

Work Experience

Envoy	Web Designer/Web Developer Lead the design and implementation of customer-facing web experiences, partnering directly with clients to deliver clear, accessible, and brand-aligned solutions. • Own end-to-end design and build of Zendesk Help Center experiences, translating requirements into scalable Figma designs and production UI • Define information architecture, and layouts to improve usability, clarity, and self-service efficiency for customers • Conduct collaborative feedback sessions and design reviews in Figma, refining concepts through iteration and maintaining high client approval rates • Implement designs directly using HTML, CSS, and JavaScript, ensuring responsive behavior, accessibility, and cross-browser consistency • Design and build custom dashboards to improve data clarity and accessibility for clients, balancing visual hierarchy with technical constraints
Zendesk	Web Developer/Designer Designed and built data-heavy, security-focused web applications and help centers, balancing enterprise technical requirements with usability, and performance. • Built and maintained Vue.js front-end components for Zendesk Support apps, integrating RESTful APIs and managing application state across user workflows • Collaborated with technical architects, solution architects, and clients to design and demonstrate custom Help Center and Support application experiences that addressed specific business and user requirements • Translated Figma designs into responsive, production-ready UI, balancing performance, reliability, and visual consistency • Used GitHub for version control and Postman for API testing, supporting smoother collaboration and troubleshooting across teams
TransUnion	Front End Web Developer II Built and refined customer-facing web products in a regulated, data-driven environment. • Delivered responsive front-end components using HTML5, CSS3, and JavaScript within a CMS, ensuring cross-browser compatibility • Partnered with design, QA, marketing, and backend teams to integrate UI with REST APIs, troubleshoot issues, and improve overall experience • Supported experimentation and optimization through Optimizely, Google Analytics, and Google Ad Manager, contributing to SEO and engagement goals • Conducted code reviews and regression testing to maintain quality and consistency across platforms
Subplot Studio	Front End Web Developer Developed custom WordPress themes using HTML, CSS, and PHP, adhering closely to brand guidelines. Built 6+ responsive, lightweight websites with a focus on usability, performance, and cross-browser support. Collaborated closely with designers to deliver visually accurate, pixel-aligned builds. Maintained client sites through updates, bug fixes, and ongoing support.
Etna Interactive	Front End Web Developer Developed responsive websites for medical practices using HTML5, CSS, and jQuery, ensuring cross-browser compatibility. Contributed to internal web standards and best practices. Maintained and refreshed sites for usability improvements, SEO, and performance.

Education

2006-2011
California Polytechnic University
San Luis Obispo, CA
Bachelor of Science: Graphic Communication
Concentration: Graphics for Packaging
Minors: Environmental Studies and Packaging
